

PROPERTY INFRASTRUCTURE - WORKING VALUES

Purposefulness (Rom 8:28)

Every infrastructure initiative and property asset must have a clear reason for being and produce an intended and desired result.

Prudence (Pro 8:12)

Care, planning and good judgment as well as foresight must be demonstrated in all infrastructure initiatives and asset usages

Stewardship (Ps 24:1, Matt 25:14-30)

We must always remember that the wealth held by the Church and its entities, is not our own but belongs to the Lord. Entrusted money and assets must be invested, managed and utilized carefully and wisely to maximize their potential and benefit to the Church.

Reciprocal Solidarity (1Cor 16:1-4, Gal 6:2)

We belong to a “Sisterhood of Churches” and must work in unity and cooperation to support the common interests of each other and of our Church. Every infrastructure initiative and property asset must contribute to this shared benefit.

Mission Focused (2Tim 1:9)

Buildings used by the Church and its entities are not an end to themselves; but rather, exist to facilitate and promote the spreading of Good News of Christ’s love for us. Every infrastructure initiative and property asset must contribute to the Mission of the Church and be Mission defensible.
